DREW LARGE SALARY

PRESIDENT OF THE MUTUAL LIFE
RECEIVED \$150,000 FOR THE
YEAR 1904.

RELATIVES HELD POSITIONS

OFFICERS OF INSURANCE COM-
PANIES GAVE THEM GOOD
SITUATIONS.

New York, Oct. 7.—Closing a week
every day of which has produced a
sensation that has stirred the country,
the special legislative committee in-
vestigating the methods of insurance
companies adjourned Friday until
Tuesday of next week, the sessions to
be held Tuesday, Wednesday and
Thursday, instead of Wednesday,
Thursday and Friday, as heretofore.
This change was made because Friday
is registration day in this state and
members of the committee desired to
be present in their various districts.

While other weeks of the hearing
have had sensations, no previous week
has had a sensation every day, as has
the one that was concluded with Fri-
day's session. On Wednesday when
President McCall of the New York
Life Insurance company was on the
stand, he heatedly declared that three-
quarters of the bills introduced into
the legislatures of the states of the
Union were blackmailing measures
and on that ground he explained the
necessity for maintaining the corps of
attorneys.

On Thursday counsel for the com-
mittee, Mr. Hughes, took another tack
and called Robert H. McCurdy, gen-
eral manager of the Mutual Life In-
surance company and son of Richard
A. McCurdy, president of that com-
pany, to testify as to the agency sys-
tem of the company, this feature of
the business being under his control.
President McCurdy's Salary.

While Mr. McCurdy was on the stand
counsel for the committee brought out
facts that changed the prearranged
course and the result was the dis-
closure of the immense profits derived
from the commissions of the insur-
ance business. Mr. McCurdy was un-
able to tell the salary of his father as
president of the company and when
the investigation opened Friday it was
expected the president of the Mutual
Life would be called to the stand be-
fore the day was over. By a misun-
derstanding, however, President McCurdy
had left the office of the Mutual Life
before he was called for, and it is
expected that he will be the first wit-
ness on Tuesday.

In Friday's testimony the sensational
development was when Mr. Hughes
demanded the payroll of the legisla-
tive officers of the company. This
was produced and showed the salaries
of these officers since 1887. For the
year 1904 President McCurdy received
\$150,000; two presidents were paid
\$50,000 each, a second vice president
\$17,500, the third vice president \$10,-
000 and the general manager \$25,000
(who this year will receive \$30,000),
and the treasurer \$50,000.

Robert McCurdy said he never knew
the salary of his father until Friday,

when he heard it read in the commit-
tee room. He thought, however, that
there should be no limit to the salary
of such positions, because they should
be in accordance with the accumula-
tions of the company.

When asked if it was any bene-
fit to the policyholder to increase the
president's salary Mr. McCurdy said
he thought the trustees had considered
that when they increased the pres-
ident's salary. No increase, however,
had ever been considered when he
was present at the trustees' meeting.

Their Principle of Reward.

Earlier in the day when Mr. McCurdy
was on the stand, Mr. Hughes tried
to bring out why C. H. Raymond
and the partners in that firm re-
ceived larger emoluments from the
company than any other agents in the
business. Mr. McCurdy said he did
not know what Mr. Thebaud received
from the business. He said it was a
"large reward for large achievements"
and that all businesses of large magni-
tude were built up on that principle.

During Mr. McCurdy's testimony it
was brought out that George Ray-
mond, a brother of Charles H. Ray-
mond, was the general agent for New
Jersey; that Howard Lewis, the gen-
eral agent for Northern New York
with an office in Albany, was a cousin
of either the vice president, Mr. Grannis,
or Mrs. Grannis; that Dr. E. J. Moss,
the medical director of the Mutual Life,
married a sister of the president of
the company, and that P. Stuyvesant
Pillot, an inspector of risks, is cousin
of Louis Thebaud, son-in-law of Pres-
ident McCurdy and partner of the Ray-
mond firm. G. W. White, a secretary
of the company whom Mr. McCurdy
was asked about, said he was no rela-
tive of any officer of the company, but

that "Mrs. White was a niece of Mrs.
Grannis, wife of Vice President Gran-
niss."

He knew none of the salaries of
these officers.

At one point in the day's testimony
much interest was manifested when
the expenditures of the company were
taken up. An auditor of the Mutual
Life, Mr. Preller, was on the stand and
he was asked as to the method of re-
cording the expenditures. It was
gathered that these were passed upon
by an expenditure committee of which
Robert Olyphant was chairman. Three
entries on the books of payments
to Mr. Olyphant of \$25,000 each
were looked into, but no information
could be gleaned. Mr. Preller was
asked about the campaign contribu-
tion to the Republican congressional
committee, which was disclosed
Thursday, but he said none had come
under his observation.

The \$2,500 to the congressional com-
mittee was looked for when the ledgers
were produced, but to adjournment
Friday afternoon this had not been
found.

COLORADO MINERS SAVED.

Rescued by Comrades From a Burn-
ing Mine.

Pueblo, Colo., Oct. 7.—A defective
electric generator started a destructive
fire at the Fremont coal mine near
Florence, Colo., at about noon
Friday. All the buildings, including
the shaft house, were destroyed.

By prompt work of their compa-
nions, the fifty miners who were in the
under workings of the Fremont mine
were rescued alive through the air
shaft, which was being slowly burned.

The men were in the main working
shaft when the fire first started, and
were unable to get to the surface by
reason of the flames having destroyed
the main shaft. Superintendent Mc-
Callister, realizing their danger, sig-
naled them to hasten to the air
shaft and that ropes would be let
down to save them. They acted at
once and while all of the available
men in the camp were fighting the
flames, Superintendent McCallister
and twenty men were rescuing the
miners from the shaft, one at a time,
the work being so slow that only two
were raised an hour. It took the com-
bined strength of twenty men to hoist
one of the miners from below.

DISCUSS LEGISLATION

PRESIDENT ROOSEVELT AND CONGRESSMAN TOWNSEND IN CONFERENCE.

NEXT SESSION OF CONGRESS

MICHIGAN MAN EXPECTS IT TO ENACT LEGISLATION ON RAILROAD RATES.

Washington, Oct. 7.—Railroad rate legislation was the topic of a long conference Thursday between the president and Representative Townsend of Michigan, one of the authors of the Esch-Townsend bill, which was passed last winter by the house of representatives. The discussion was supplementary to that of Wednesday, when the president did not have time to consider the subject fully with Mr. Townsend.

At the conclusion of the conference, which lasted an hour and a quarter, Mr. Townsend said it was his purpose to have his bill in readiness for introduction in the house as soon as congress convenes.

"I have been working on it practically throughout the summer," said he, "and now have it pretty well formulated. My effort now is to make certain that it shall cover what is expected of it. It will embody my ideas and, at the same time, I am quite sure it will represent accurately those of the president. That he will approve of it in the form I shall present it to congress I have no doubt."

The attorney of Hennepin county has decided that a man may marry his adopted daughter if so inclined. The law makes the adopted child "the same in all things as a child born in wedlock," while that portion of the statute relating to the subject of matrimony reads that no nearer of kin than first cousins can intermarry.

The Wadena Tribune is again demonstrating that the defeat of Senator Nelson would be a good thing for Minnesota, and that the defeat of Congressman Buckman would be gratifying to the Tribune. The usual bunch of disappointments will come to the Tribune. Nelson and Buckman will be re-elected, says the Little Falls Transcript.

In commenting on the remarks of the Cass Lake Voice that Senator Brower could control the Sixth district delegation if he decided to become a candidate for governor, the Wadena Pioneer-Journal says: "We don't know about that, but we do believe that if Senator Brower does not persist in entering the congressional game, the Sixth district could easily be united on some worthy candidate for governor. The Sixth district at one time had much of influence in state affairs, and if Brower and one or two other will do a fair thing, the district can again be united."

MANY inquiries are being made regarding the absolute sale of lands for taxes which will be held at the court house in November under direction of the state auditor. There will be two distinct sales. The first one will be held under the law of 1902, which provides that when taxes on land have gone unpaid for three years the title becomes vested in the state, and the land is sold at public auction, the purchaser getting a deed from the state for the land. This sale will commence at 9 o'clock on the morning of Nov. 8, and no land with unpaid taxes back further than 1900 will be sold at this sale. The other sale will be under another law, and will include land upon which taxes prior to 1900 are due. The county auditor has been instructed by the state auditor not to sell any land for less than the taxes charged up against it, but at future sales this rule will probably not be enforced in some cases. A sale of this sort will be held each year. After the sale of this land the county auditor will have the sheriff notify all former owners of land, personally when it can be done, that the land has been sold, and sixty days after they have been so notified is the limit in which they can redeem.

JOB PRINTER IN A DILEMMA.

Will Go to Prison If He Joins His Striking Comrades.

Minneapolis, Oct. 7.—Members of the Minneapolis Typographical union appealed to the governor and to the members of the state board of control Thursday for permission to let a member of their union join the strike which the union has on in the job printing establishments in the Twin Cities. The man wants to join his fellow members in the strike, but if he does it means going back to the state prison at Stillwater.

The man is out of prison on parole, and one of the conditions of the parole is that he keep at work. If he goes on strike, he violates this condition. He got a special dispensation from the union to keep on working, but the union would like to have him quit, and the delegation urged that an exception be made in his case permitting him to stop work. The board will take the matter under consideration.

ITALIAN BOY IS FOUND.

Supposed Victim of "Black Hand" Society Located.

New York, Oct. 7.—Tony Marendino, the small Italian boy who was kidnapped from his Brooklyn home two weeks ago and held captive while demands for a \$5,000 ransom were made upon his parents, was brought to the East Sixty-seventh street police station by a street car inspector. He had been left on a surface car by a man he did not know. The boy seemed dazed and could give no information about himself. The police notified the Marendino boy's parents in Brooklyn, who identified their son.

Several arrests of members of the so-called "Black Hand" organization have been made by the police in connection with the case.

Aged Sailor Stabbed.

Minneapolis, Oct. 7.—Ira Riddle, an aged sailor, was almost stabbed to death Thursday in his bed in the Vestibule lodginghouse at Hennepin avenue and Second street. The motive for the attempted murder was robbery. Riddle had \$150 deposited in the Security bank, the certificate for which was stolen from him a few days ago.

TEN MEN ARE KILLED

MEET INSTANT DEATH IN QUARRY OF A SLATE COMPANY AT GRANVILLE, N. Y.

VICTIMS HAD NO WARNING

CRUSHED BENEATH A SLIDE OF HUNDREDS OF TONS OF SLATE AND EARTH.

Granville, N. Y., Oct. 7.—Ten men met instant death at the quarry of the Vermont Slate company here Friday when about 100 feet of the west bank crashed down without warning, burying the victims under hundreds of tons of slate and loose earth. Five bodies were recovered, but it is doubtful whether the others can be reached before next week. The dead, with the exception of John G. Williams, president and treasurer of the company, are all Hungarians.

The slide occurred at 9:30 a. m. while the gang was at work in the quarry, directed by Mr. Williams, and the men were caught like rats in a trap. Mr. Williams was standing near the edge of the bank while the others were below in the pit. He had just raised his arm to signal to the engineer in charge of the hoisting engine when the bank gave way, carrying him into the pit, seventy-five feet below.

FOR TARIFF REVISION.

Massachusetts Republicans Declare in Favor of Such Action.

Boston, Oct. 7.—With only one voice raised in opposition the Republicans of Massachusetts in convention Friday declared for a revision in the tariff. Contrary to expectations, the radical wing of the party, under the leadership of Eugene N. Foss of Boston, did not offer a substitute for the plank in the platform relating to the tariff, although in a speech to the delegates Mr. Foss declared that the revision of the tariff favored in the state platform was not sufficiently wide in its scope. Mr. Foss said, however, that he and his followers were encouraged at the concessions made to them and that next year they would expect to have the convention accept their proposition in its entirety. The following ticket was nominated:

For governor, Curtis Guild, Jr., Boston; lieutenant governor, Eben S. Draper, Hopedale; secretary of state, William M. Olin, Boston; treasurer and receiver general, Arthur B. Chapin, Holyoke; auditor, Henry E. Turner, Malden; attorney general, Dana Malone, Greenfield.

One of the surprises came when General William F. Draper, former ambassador to Italy, opposed in a vigorous speech the adoption of the tariff plank of the platform.

SHOULD INTERFERE IN CUBA.

General Gomez Says It Is the Duty of the United States.

New York, Oct. 7.—General Jose Miguel Gomez, the candidate of the Liberal party for the presidency of Cuba, who is at present in New York, said Friday that it is the duty of the United States government, under the Platt amendment, to interfere in Cuba and to see to it that the island has genuine and honest elections.

He described what he said was the despotism of President Palma's government and the combined and open use of fraud and force in Cuban elections, claiming that Congressman Villanueva was assassinated and the military story concocted for the purpose of deceiving the people of the United States. He said the ballot boxes were stuffed by the Moderates and then guarded by armed criminals, policemen and rural guards.

General Gomez said he expected the elections in December to be conducted in the same manner unless the United States interfered and guaranteed honest and genuine elections, which, he said, was all his party asked.

MARKET DAY IS A GREAT SUCCESS

Nearly Two Hundred Head of Stock Brought in By the Farmers of Crow Wing

SEVERAL BUYERS ARE HERE

And They Are Receiving Some Good Prices for Same—Address By Prof. Haecker

The second Market Day, today, which now promises to become one of the most profitable institutions that Brainerd and Crow Wing county can boast of, was a success and far exceeded the most sanguine expectations of the Commercial Club and others who have the matter in charge.

Early this morning farmers commenced to arrive and by noon there were fully one hundred farmers present at the old haymarket with cattle and horses to the number of about 200, besides the large number of chickens, ducks, swine and garden produce of all kinds. The sight at the old market this afternoon was certainly good for sore eyes, for large crowds gathered and the buying was brisk and much interest was taken in the competition for the prices offered by the merchants.

There were from five to ten buyers present besides the local buyers and most every farmer that sold was well pleased with the prices he received. Among the buyers were: C. J. Christianson, of Wright county, Johnson & Hilstead, of Cloquet, Mr. Pierson, representing Slimmer & Thomas, South St. Paul, and many others.

The judges are busy this afternoon awarding the prizes which THE PATCH will publish in Monday's issue.

The classes of stock brought in by the various farmers will average well up with any locality in the state, some herds, such as the J. M. Elder and R. R. Wise cattle being way above the average. The herd of forty full blood Hereford cattle brought in today by R. R. Wise is as fine an exhibition as has ever been seen in the county and shows what can be done in this line of industry.

Among those who have some excellent exhibits are farmers well known in the county, who have lived here and grown up with the country. As one man stated today who had three colts and a team of brood mares, "I came to Crow Wing county without a dollar and I figure that I have tied up in that bunch of horses alone from \$700 to \$1,000, and that is not all I have either. I have a farm well cultivated and well stocked with cattle and horses and do not owe a man in the world a dollar."

Prof. Haecker, of the Minnesota Agricultural college, is delivering an address this afternoon on dairy husbandry. The weather is so fine that the committee made arrangements to have a platform erected on the hay market where the address is being given.

MAKING IMPROVEMENTS

In the Heating System of the Northern Pacific Sanitarium in This City--A New Power House

Some extensive improvements are being made in the heating system of the Northern Pacific Sanitarium in this city. A new system of heating is being put in and for this purpose a new power house is being erected just south of the track. It will be one of the most modern plants in the northern part of the state when completed.

SALE OF ACREAGE ON CUYUNA

Adams and Congdon Buy Two Thousand Acres of Land Believed to Contain Iron Ore

A big sale of acreage on the Cuyuna iron range is reported to have just been consummated. The purchasers are said to have been David T. Adams and C. A. Congdon of Duluth, and the extent of their buying being given at 2,000 acres. The consideration could not be ascertained. The land is situated in the heart of the Cuyuna range, in 46-29, says the Duluth News-Tribune.

The former owners of the land were Iowa parties, who had purchased it for agricultural purposes on their own account, or expecting to sell it to others for farms. It is not yet known what the plans of the new owners are, but it is expected that they will later begin exploratory work to ascertain the mineral contents of the land.

A large number of successful mining men are now interested on the Cuyuna, and there is a general feeling that the range will ultimately develop some good iron mines. Work on none of the properties has thus far been extensive enough to fully prove up the value of the iron deposits, but it is said some good ore has been found.

TWELFTH ANNUAL CONFERENCE

Of Officers, Missionaries and Friends of the American Sunday School Union to be Held Oct. 17 to 22

Missionary Walter Smith asks that the announcement be made that the twelfth annual conference of the officers, missionaries and friends of the American Sunday school union will be held in Minneapolis on Oct. 17 to 22. Mr. Smith has a letter from F. A. Bartlett, chairman of the committee on arrangement, in which he says:

"We have been greatly favored in obtaining some of the speakers. Dr. Frost, who is one of the greatest Bible teachers in America, will give us a series of lectures on the Book of Hebrews; Dr. Roberts, who is exceptionally fine in practical talks to Christian workers, takes the afternoon devotion service; Dr. Riley is noted all over the country as an evangelistic pastor of unusual ability; his address will be a treat. Many of the missionaries are acquainted with Dr. Guild and know what an inspiring address to expect from him. Probably no pastor in recent years has made himself felt more in the Northwest than has Dr. Boyle, of St. Paul, who is to speak on 'Dividends Certified.'

"In addition to these friends from outside we are to have Mr. Clarkson Clothier, of Philadelphia, who was described to me by one of his acquaintances, as 'a wonderfully great little man.' Mr. Clothier is the chairman of our missionary committee and we shall be greatly pleased to meet the man who has had such a deep interest in the work of every missionary. All of the men of the Northwest will be pleased to again greet Mr. John Knox Marshall, our manager from Brooklyn, Mass., who will attend for a couple of days and address the conference."

MANY JAPS PERISHED

FIFTY FISHERMEN DROWNED IN STORM OFF BRITISH COLUMBIAN COAST.

Vancouver, B. C., Oct. 7.—The great southeasterly gale that swept the coast Friday is believed to have resulted in the drowning of at least thirty Japanese fishermen who were out on the Gulf of Georgia fishing for salmon. The tug Lorne reached here Friday afternoon from Victoria, bringing eleven Japanese picked up when they were nearly dead from exposure. Captain Butler of the Lorne learned from some of the English-speaking Japanese that at least sixty-five fishing boats were out early Friday when the storm broke. The Japanese declared that fully fifty men had been drowned or battered to death on the rocks when their boats were blown ashore. The whole gulf shore on the mainland from Howe's sound to Texada Island, is lined with the wrecks of fishing boats.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

STILL EXCEEDS EXPECTATIONS.

Volume of Trade Better Than Had Been Anticipated.

New York, Oct. 7.—Bradstreet's weekly review of trade says that while not so active as in recently preceding weeks, the volume of trade still exceeds expectations. Contributing to this are better reports from retail lines, necessitating reorders of seasonable goods, fall festivals, enlarging crop movement and a continued immense turnover in industrial lines. Complaints as to car shortages increase, the grain, coke, iron and lumber trade all reporting congestion from this cause. Undiminished activity is witnessed in the iron trade, demand for crude and finished products surpassing previous years at this period. Higher levels of future cost, particularly as to coke and ore, confront these trades. Collections from the country as a whole are good. Money is still moving to the country and while in liberal supply for ordinary trade purposes, higher quotations abroad seem certain. Bank clearings testify to new heights being reached for this season of the year, after a full year of record breaking totals at the metropolis and in the country. Something like a downward swing in prices of agricultural products is in evidence, which augurs for lower prices of feeding stuffs and cheaper cost of meat production this winter.
